report but I do not see an engineering report or recent health report in NCR. The health assessment is	
from December of last year. It is a sustainable futures submission. No eco risks just Ex. 5 Deliberative Process (DP) Ex. 5 Deliberative Process (DP) Seems pretty straight forward.

They should be moved to hair on fire status since the submitter is pinging politicaland when did PM	
last touch base with company on their concerns?

Subject: The three PMNs that you asked about	
these are all [Ex. 5 Personal Privacy (PP)]'s cases. Two of them have a current day 90 of 7/31 but they don't seem to	
have more than a data review memo. P-18-394 has a day 90 of 6/28 and it has a briefing paper so it is	
further along. None of them are on the list of RAD CCD SIFS. Let me know if you need more info.
